CANDLE WORKSHOP

From £49 Per Head
2 Hour Workshop

A BEAUTIFUL PRIVATE WORKSHOP THAT WILL EVOKE YOUR SENSES.

Whilst your guests settle with a glass of something cold and bubbly, Nicola your candle tutor, opens the class sampling fragrances oils, learning about the three layers of scent, top notes, middle notes and finally the deeper earthy base notes that will bind the fragrance together.

Six scented oils are provided for your guests to choose from.

Option 1

Scented Candle & Centrepiece

While our fragrance selection comes up to room temperature and shows its true self, a brief talk is given about the science behind the art of candle making and a short demo on the actual process.

From here the guests will set up their own candle glass ware, combine the fragrance oil and wax, finally pouring their own candle.

As your candle sets, its time to bring it all together and design your floral centre piece.

Sit back and enjoy another refreshment, while we go through the basic steps in creating your centre piece.

Starting from a wooden box as your base we build up a floral arrangement around your candle.

All florals will be a mixture of dried and artificial so your guests can enjoy their creation for years to come.

Colours and themes can be tailored to match the bride's wedding theme or flowers.

Opition 2

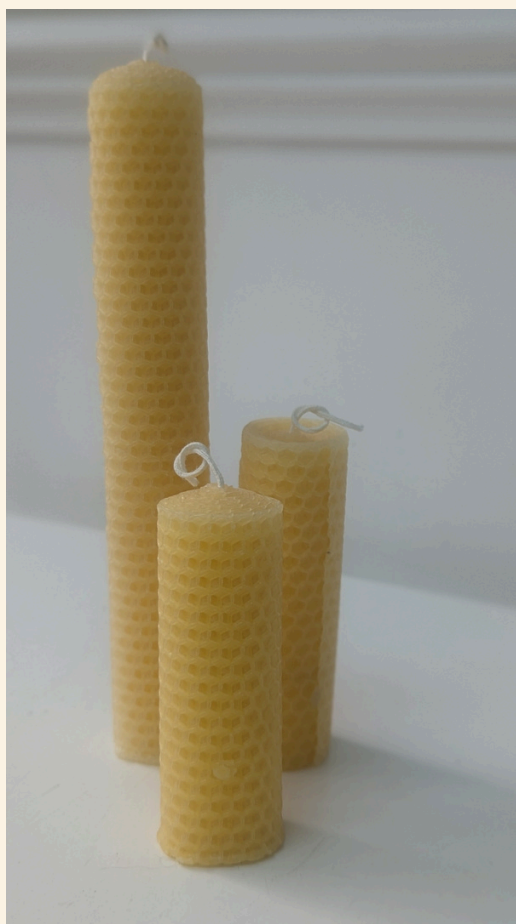

Duo of Candles

The ultimate candle experience as we experiment with two different waxes.

While our fragrance selection comes up to room temperature and shows its true self, a brief talk is given about the science behind the art of candle making and a short demo on the actual processes.

Starting with soft creamy soy wax we will hand pour a scented three wick candle bowl. While the large candle starts to set, we hand roll two beeswax pillar candles.

A candle making guide is provided to all guests upon arrival for them to work from and then take away to continue their candle making journey after the event.

We offer candle refills and candle making kits to keep the memory of the day alight forever.
